| <b>FINDINGS AND ORDER RE SEALING SEARCH WARRANT NO. 5048A</b>   | CASE NUMBER: 1133603   |

On July 23, 2004, the District Attorney filed a Motion to Seal Search Warrant No. 5048A and its associated affidavit and return pursuant to CRC Rule 243.2. The motion to seal these Search Warrant materials is now granted.

The Court makes the following findings:

Search Warrant No. 5048A, and its associated materials, in its unredacted form, identifies items of evidence the admissibility of which has yet to be determined by the Court and would potentially compromise fair trial rights and an ongoing investigation if released without redaction. The affidavit references material that has previously been sealed by the court.

In this case, protection of the parties' right to a fair trial and a full opportunity to investigate the facts overcomes the right of public access to the record. A substantial probability exists that these interests will be prejudiced if the record is not sealed as requested. The intensity of the media coverage in this case is high. Each court hearing is thoroughly reported and exhaustively analyzed by the media. It is substantially probable that if the evidence and testimony expected to be given at trial were to be released pretrial, it would be similarly reported and analyzed. The sealing order is necessary to maintain the integrity of the available jury pool by limiting its exposure to the expected evidence and testimony pretrial and to prevent exposure to inadmissible items of evidence. The Court has consistently held that because of the pervasive media coverage in this case, the Defendant's right to a fair trial outweighs public access. Those findings are relevant here and incorporated by reference. [See Findings and Order re: Motion for Protective Order, filed January 23, 2004 and Findings and Order re: Sealing of Search Warrant Materials, filed January 23, 2004]

There is no less restrictive mechanism to protect the fair trial and full investigation interests. The extraordinary circumstances present in this case overcome the presumption that cautionary admonitions and instructions to the jury pool would have a fully curative effect. It is far more desirable to avoid the prejudice in the first instance than to hope to identify unaffected jurors later.

Nevertheless, the Court acknowledges that its order must be narrowly tailored to accommodate the maximum public disclosure. The search warrant and affidavit in the redacted form attached to this order may be made a public record.
